Name: _____

Grade: _____

What you need:

A clear cup

A ruler

Water

Tape

1. Place the plastic cups in a sunny place. It will get a little easier to see.

2. Measure the water level in the cup. Record how high the water is each day.

3. Place the plastic cups in a sunny place. It will get a little easier to see.

4. Measure the water level in the cup. Record how high the water is each day.

What did you observe?

What do you think happened to the water?
