

Count and Write to 10

● Write and Count Out

Age Group	Percentage of Respondents
18-29	65%
30-39	75%
40-49	85%
50-59	90%
60+	95%

♥ **Have children count and write how many objects.** First, have children count and write the number of balloons. Next, have children count and write the number of purple handles. Then have children count and write the number of red hats.

● **Have children write and count out numbers.** First, have the children write the number 2 and circle two of the same item. Then, have children write the number 3 and draw a line under three of the same item. Last, have children write the number 5 and draw a box around five of the same item.

▲ Compare Objects

▲ Have children compare quantities. Have children count and write how many shopping bags and how many backpacks, then circle the number that is less. Repeat with how many red hats and how many yellow hats.
